Arab Open University · 2015–2020

Front-end Development

Brainnest · Industry Certificate

Core focus

Web applications
Data management
Dashboards & KPIs
Automation
IT infrastructure

Profile

Full Stack Developer and IT support specialist combining web application development, data management, systems administration, and end-user support. University-trained in Information Technology & Computing, with an industry Front-end Development certificate from Brainnest. Experienced in building database-driven applications, data-collection forms, dashboards and KPI reporting, automation workflows, and production websites.

Experience

IT Support & Systems Administrator

Oct 2022 - Present

Emerge International (NGO) — Amchit

- Develop and maintain the organization's public-facing website, including the Next.js-based emergeinternational.org website.
- Design and maintain a complex web-based data management system for structured data collection, reporting, dashboards, and KPI monitoring.
- Build forms and web applications for gathering organizational data and automating operational workflows.
- Develop an internal inventory web application for office items with automatically generated QR codes for asset identification and tracking.
- Full-stack development using JavaScript frameworks, PHP, Python, Node.js, HTML/CSS and Bootstrap; database engineering with MySQL.
- Administer Microsoft 365, accounting systems and databases; support staff PCs, networks, reporting, and day-to-day IT operations.

IT Support

Jun 2021 - 2022

Credit Trust — Port, Beirut

- Provided office IT support, software and equipment management, and user assistance.
- Administered the ICBS accounting system for Banque du Liban.

IT Support & Reporting

Jan 2017 - Jan 2021

Consolidated Engineering & Trading Company — Janna

- Managed document control, daily site reporting, data entry, and office IT support for the Janna Dam construction office.
- Supported CET and AG companies during the Janna Dam Project (2018–2021).

Education & Certification

Bachelor's Degree in ITC

May 2015 - Jun 2020

Arab Open University — Badaro

Information Technology & Computing — programming, databases, systems and software development

Front-end Development — Industry Training Certificate

Brainnest — Germany
